Medical Innovation Journey

About the Workshop

Workshop explores how real clinical needs can be transformed into impactful medical technologies. Participants will learn the journey from problem identification and solution design to validation, regulation, and commercialization. The session highlights practical strategies for bridging healthcare, engineering, and entrepreneurship to deliver innovations.

Objectives

- To introduce design thinking and innovation in healthcare.
- To identify real-world health challenges from patient and stakeholder perspectives.
- To develop problem statements, solution concepts, and clear impact pathways.

No Registration Fees

Speakers

- Prof. Anurag Srivastava, Head, Dept. of Engineering Sciences.
- Dr. Manoj Kumar Dash, Associate Professor, Dept. of Management Studies.
- Dr. Biswabandhu Jana, Assistant Professor, Dept. of Electrical and Electronics Engineering
- Dr. Gaurav Sharma, Assistant Professor, Dept. of Electrical and Electronics Engineering
