Indian Institute of Information Technology
and Management (ABV-IIITM), Gwalior
(An Institute of National Importance established by MHRD, Government of India)

BCS (B.Tech – CSE)

2018–2022

The objective of this study course is to make students competent to take careers involving innovation and problem solving using their skills of computational techniques and technologies. The global situation demands high-quality manpower in emerging areas such as IoT (Internet of Things), Data Science, Machine Learning, Artificial Intelligence, Cloud Computing, Software Development, Security, Networking, and Social Networks. Candidates after successful completion of this study course are expected to tackle specific requirements in resource optimization and integration of existing and new technologies. ABV – IIITM meets the demand through creation of capable professionals who are looking forward to leveraging their love for technology to make a difference.
